# 1.0 Introduction

Better Living Better Health 2020 – 2025 is the regional public health and wellbeing plan for the Eastern Health Authority Constituent Councils of Burnside, Campbelltown, Prospect, Norwood Payneham & St Peters, and Walkerville. This Plan builds on the previous Public Health Plan and will lay foundations for the next Public Health Plan.

This Regional Public Health Plan acknowledges that public health is a key concern for all Constituent Councils and that each Council addresses public health issues across their business. This plan does not detail these individual actions. Instead, it focussed on regional activities that require collaboration between the councils and community partners.

Better Living Better Health 2020 – 2025 is a public health and wellbeing plan that builds on regional strengths and addresses regional challenges. This Plan also considers priority populations identified in South Australia's State Public Health Plan 2019-2024, including Aboriginal people, people experiencing socioeconomic disadvantage and people from culturally and linguistically diverse backgrounds. And it addresses the State's four strategic priorities:

- Promote: Build stronger communities and healthier environments.
- Protect: Protect against public and environmental health risks and respond to climate change.
- Prevent: Prevent chronic disease, communicable disease and injury.
- Progress: Strengthen the systems that support public health and wellbeing.

This Regional Public Health Plan was developed prior to the onset of the Covid-19 pandemic. This pandemic will require regional cooperation and the governance structure for this plan will support this.

## 2.0 Where we are coming from and where we are going

This is the second Regional Public Health Plan for the region. As such it builds on the last plan, *Better Living Better Health 2014-2018*, and it will be the foundation of the next.

### 2.1 Long Term Goals

Consultation for the previous Regional Public Health Plan included a stakeholder forum with a focus on key issues, current initiatives and opportunities for promoting health and wellbeing in the region. This consultation helped to define long term strategic directions for public health in the EHA region. These include<sup>1</sup>:

#### 1. Enhanced Environments for Health

The natural, built and cultural environment influences how people live, their interaction with their communities and their ability to adopt active and healthy lifestyles. The State Public Health Plan recognises the important role that Councils play in promoting physical environments for health. Councils are encouraged to consider the CHES principles for healthy environments: <sup>1</sup>

- **Connected Environments.**
- **Healthy Eating Environments.**
- **Safe Environments.**
- **Sustainable Environments.**

This priority area recognises the role of the EHA Councils in promoting wellbeing through supportive environments and communities. Promoting environmental sustainability in the region is fundamental to the future health of the community and resilience to environmental impacts such as climate change and water security.

<sup>1</sup> For more detail refer to *Better Living Better Health 2014-2018*<sup>1</sup>

## 2. Enhanced Capacity for Health

Non-communicable diseases including heart disease, cancer and diabetes are major contributors to death and ill health around the globe, across the nation and in the local community. These preventable, lifestyle related diseases can be greatly reduced by avoiding being overweight or obese; poor diet and excessive energy intake; insufficient physical activity; tobacco use, and harmful levels of alcohol use. There are no quick solutions to these complex public health problems, but local Councils are in a unique position to partner with a range of stakeholders to address these issues, working towards the vision of healthy and active communities.

## 3. Enhanced Protection for Health

The region is committed to protecting public health and safety through developing and enforcing public and environmental health performance standards, adopting a risk-based approach to public health management and continuing to provide a high quality immunisation service. The Constituent Councils also protect public safety through prevention and response planning for emergency risks in the region.

## 2.2 Previous Plan

*Better Living Better Health 2014-2018* aimed to integrate public health planning into council business. It articulated projects and activities being undertaken by individual councils and encouraged a public health lens. *Better Living Better Health 2014-2018* reported on regional characteristics that are still relevant to public health and wellbeing planning in the region. It is a valuable resource for understanding the following:

- How the region responds to the public health and wellbeing needs of its community at the council level;
- Who the community stakeholders are;
- What opportunities and challenges exist for the delivery of public health and wellbeing activities.

## 2.3 This Plan

*Better Living Better Health 2020-2025* aims to establish regional projects and foster regional collaborations. This plan will leverage off the strengths of the region, including:

- River Torrens Linear Park, trails and open space
- Range and quality of amenity and opportunities
- Community pride and engagement
- Existing regional initiatives

This plan will also address key challenges, such as:

- Poor continuity of cycling and walking access to linear park and open space
- Residential growth
- Pockets of poor access to open space
- Pockets of social disadvantage
- Isolation and hoarding
- Inadequate volunteering opportunities
- Ageing population
- Youth engagement

## 2.4 Next Plan

It is anticipated that the next Public Health Plan will be informed by the experience of implementing the regional projects outlined in this plan. It will continue to build on regional strengths and address evolving challenges. It will invest in effective collaborations and partnerships to progress and innovate in areas of particular public health concern for the region.

## 3.0 Demography and Geography of Public Health & Wellbeing

Planning for public health and wellbeing requires an understanding of regional demography and mapping of relevant community characteristics. The following is provided to assist in the collaborative planning of regional projects outlined in this Plan, and to support individual Councils in the integration of public health planning into Council business.

The history and many characteristics of the region have not changed since Better Living Better Health 2014 – 2018. That Plan remains a significant resource to Councils. Relevant background information is included here along with new data and maps.

### 3.1 Regional Characteristics to be Considered when Planning

The EHA region comprises well-established inner urban suburbs adjacent to the Adelaide CBD, extending to newer development in the outer and peri-urban areas at the foothills of the Adelaide Hills. Key natural assets are a feature of the region and include the River Torrens and the five watercourses which traverse the region and flow into the river, as well as a number of significant conservation areas and parks.

The EHA region has a rich and diverse history, which contributes to the high quality urban environment. The region contains excellent intact examples of South Australia's residential and commercial built heritage from the Victorian era and beyond. The built environment is largely residential in character with light industrial areas in Magill, Newton, Stepney and Glynde and along sections of the arterial roads in Prospect and bordering the Town of Walkerville.

As an established part of the Adelaide metropolitan area, parts of the region are in the process of, or have undergone, suburban regeneration. There is proposed residential growth in key areas of the region as outlined in the 30 Year Plan for Greater Adelaide. The strategy calls for residential growth, providing housing diversity and catering for mixed-use development along key transit corridors and in targeted regeneration areas. There is increasing recognition by the Constituent Councils of the importance of integrated planning and development for ensuring liveability and vitality.

The EHA Constituent Council region is shown in Figure 1 with each Council area highlighted.

## Population

Population figures for each of the Constituent Councils are provided in Table 1. Overall there has been a slight increase across all Councils since 2011.

**Table 1 Populations for EHA councils**

Council	2011 population	2016 population	2036 projected population (DPTI Population Projections)
<b>Prospect</b>	19,955	20,527	23,650
<b>Walkerville</b>	7000	7,550	8,622
<b>Campbelltown</b>	48,162	50,154	58,435
<b>Norwood, Payneham and St Peters</b>	34,887	35,362	40,063
<b>Burnside</b>	42,192	43,911	48,059
<b>EHA Region</b>	152,196	157,504	178,829

Source: ABS 2016 Census QuickStats; DPTI population Projections 2016 - 2036

The region has a diverse mix of population, household family types, ages and incomes. Table 2 illustrates the region's cultural diversity at the time of the ABS Census 2016.

**Table 2 Culture and Ethnicity 2016**

Council	Aboriginal and Torres Strait Islander population (number)	Aboriginal and Torres Strait Islander population (%)	Australian born (number)	Australian born (%)	Speaks a language other than English at home (number)	Speaks a language other than English at home (%)
<b>Prospect</b>	165	0.8%	14,044	68.6%	5,367	26.1%
<b>Walkerville</b>	55	0.7%	5,052	67.0%	1,632	21.7%
<b>Campbelltown</b>	282	0.6%	31,062	61.9%	17,358	33.6%
<b>Norwood, Payneham and St Peters</b>	219	0.6%	22,889	64.9%	9,375	26.5%
<b>Burnside</b>	139	0.3%	28,641	65.3%	10,604	24.1%
<b>EHA Region</b>	860	0.5%	101,688	64.6%	44,336	28.1%

Source: ABS 2016 Census QuickStats

## Language

The region had a higher proportion of residents from Culturally and Linguistically Diverse (CALD) backgrounds, compared to Greater Adelaide, particularly in the Cities of Campbelltown, Prospect and Norwood Payneham & St Peters (NPSP). Tables 3, 4 and 5 provide the numbers of people from various linguistic backgrounds across all Councils. Figures 2 - 5 show where these people live across the region.

**Table 3 – People who speak Chinese**

Council	People who speak Chinese at home (with % of total population)	Proportion of people who speak Chinese at home and speak English not well or not at all
Prospect	605 (3.0%)	125 (0.6%)
Walkerville	389 (5.2%)	92 (1.2%)
Campbelltown	3,426 (6.8%)	733 (1.5%)
Norwood, Payneham and St Peters	2,114 (6.0%)	424 (1.2%)
Burnside	3,723 (8.5%)	752 (1.7%)
EHA Region	10,257 (6.5%)	2,126 (1.3%)

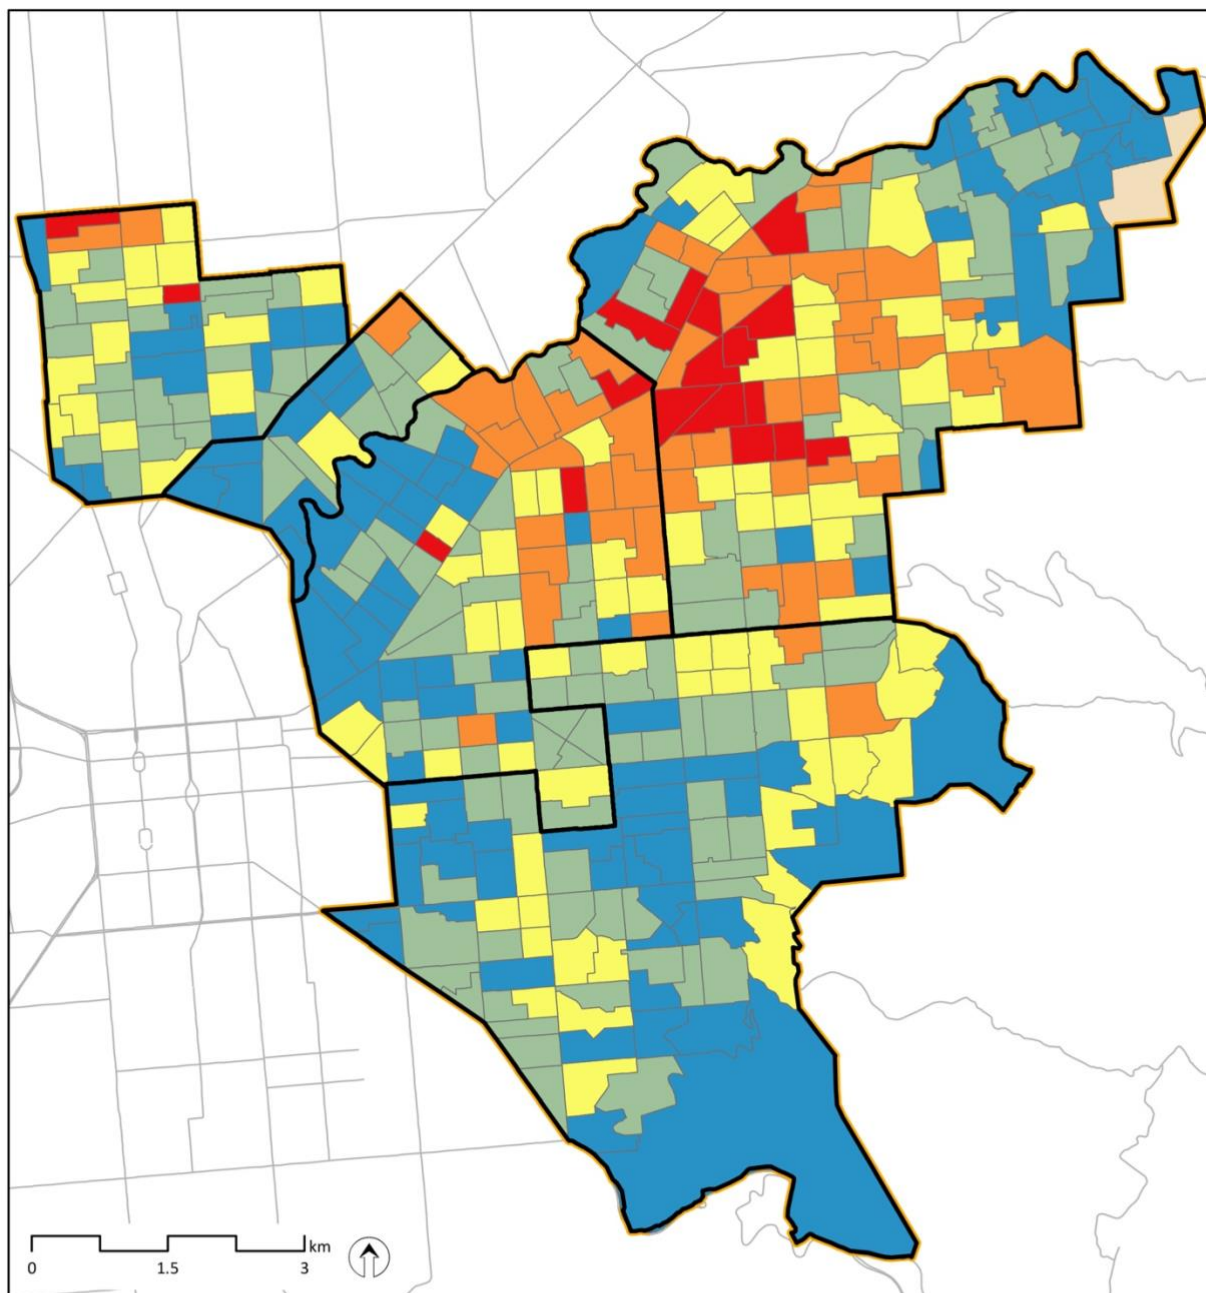

**Table 4 – People who speak Italian**

Council	Proportion of people who speak Italian at home	Proportion of people who speak Italian at home and speak English not well or not at all
Prospect	677 (3.3%)	79 (0.4%)
Walkerville	185 (2.5%)	18 (0.2%)
Campbelltown	5,596 (11.2%)	826 (1.6%)
Norwood, Payneham and St Peters	2,310 (6.5%)	430 (1.2%)
Burnside	1,060 (2.4%)	107 (0.2%)
EHA Region	9,828 (6.2%)	1,460 (0.9%)

**Table 5 – People who speak Indo-Aryan**

<b>Council</b>	<b>Proportion of people who speak Indo-Aryan languages at home</b>	<b>Proportion of people who speak Indo-Aryan languages at home and speak English not well or not at all</b>

### Index of Relative Socioeconomic Disadvantage (IRSD)

The region is known as one of relative advantage when compared to Greater Adelaide, and this is reflected in the high IRSD scores across Councils (Table 6). It should be noted, however, that there are pockets of significant disadvantage, particularly in the Cities of Campbelltown, Norwood Payneham & St Peters, and the Town of Walkerville. This is illustrated in Figure 6.

**Table 6 – IRSD scores across Council areas**

Council	IRSD score	IRSD Decile (SA)
<b>Prospect</b>	1046	10
<b>Walkerville</b>	1072	10
<b>Campbelltown</b>	1012	8
<b>Norwood, Payneham and St Peters</b>	1029	9
<b>Burnside</b>	1081	10

## Age and Sex

Figure 7 illustrates the regional population distribution by age and sex. Overall there are slightly more women than men, particularly in older age groups. There are also more older people and fewer children and young people compared to greater Adelaide (figure 8).

**Figure 7 – EHA Population Distribution by Age and Sex**

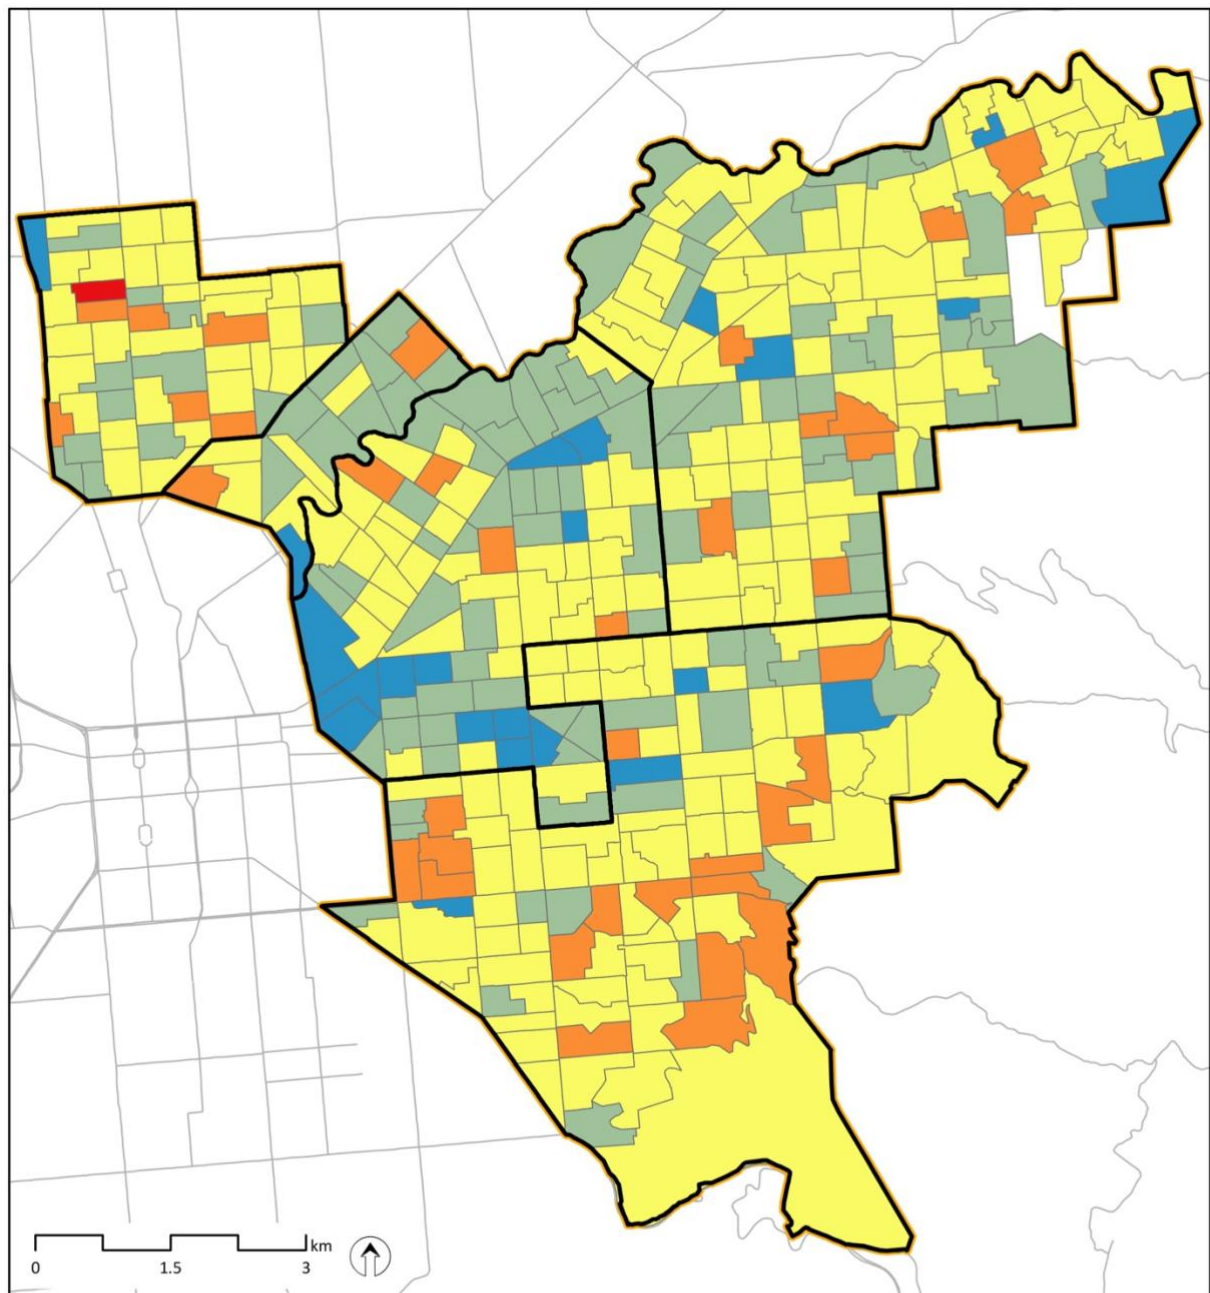

**Figure 8 – Age distribution Greater Adelaide**

The medial age across all Councils is shown in table 7. Figures 9 and 10 illustrate where there are concentrations of younger and older residents.

**Table 7 – Median age across Council areas**

### Assistance with Core Activities

Table 8 indicates that people requiring assistance with core activities are concentrated in Campbelltown and Norwood. Many of these people are likely to live in retirement or aged care facilities in these areas. Figure 11 illustrates this geographically.

**Table 8 – Assistance with core activities**

Council	Number of people who require assistance with core activities	Proportion of population (%)
Prospect	977	4.8%
Walkerville	348	4.6%
Campbelltown	3,216	6.4%

## Year 12 Completion

Table 9 indicates that year 12 completion is relatively high across the region, however there are clear differences between Council areas that may be related to age distribution, cultural background and socio-economic status (Figure 12).

**Table 9 Year 12 completion across Councils**

Council	Number of people aged over 15 that have completed year 12 or equivalent	Population aged over 15	Proportion of population aged over 15 (%)
<b>Prospect</b>	10,796	17,036	63.4%

		 70.1 - 85.0%

Data source: DPTI, ABS (2017)

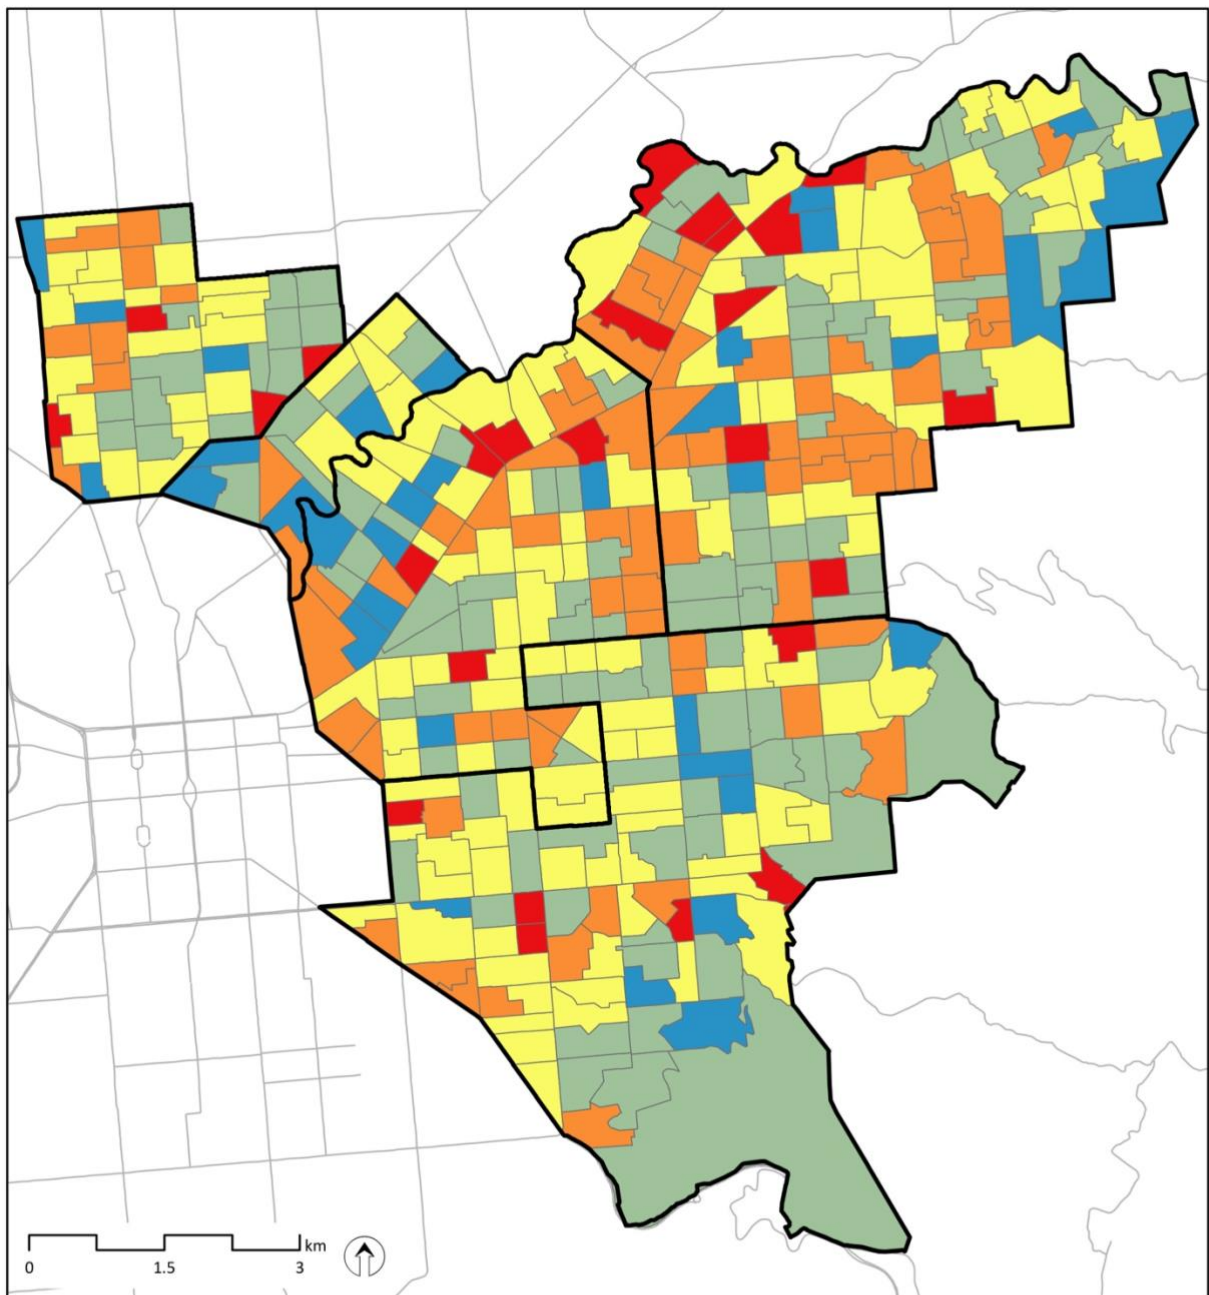

## Unemployment

Table 10 indicates lower unemployment rates across the region compared with Greater Adelaide. Only 3.4% of people in the Region receive an Unemployment benefit and the disparity in figures is likely due to other differences in socio-economic circumstances of job seekers. Figure 13 indicates a fairly even spread of job seekers across the region.

**Table 10 - Unemployment**

Council	Number of people in labour force	Number of people unemployed and seeking work	% Unemployed and seeking work

## 4.0 Community Consultation

### 4.1 Informing the draft Regional Public Health and Wellbeing Plan

Over the past five years, all constituent councils have engaged their communities around issues that are relevant to public health and wellbeing in the region. A decision was made to reflect on feedback from these consultations for the development of the draft regional public health and wellbeing initiatives. The rationale for this decision is based on the following:

- Consultation fatigue – multiple consultations, especially around related topics, can reduce participation and representativeness of findings.
- Resource limitations restrict consultation activities to one or two community events. Some groups of people may not have the same access to a general community forum focussed on public health and wellbeing.
- Considering feedback from a range of consultation activities is likely to be more inclusive of the experiences and ideas of certain groups of people, including older people, youth, Aboriginal and Torres Strait Islander people, people with disability and CALD communities.
- Considering feedback from a range of consultation activities can increase the representativeness of feedback and result in decisions that are better for the whole region.

Council consultation feedback considered for the draft includes:

- Council strategic directions
- Reconciliation planning
- Age-friendly planning
- Planning for children and youth
- Access and inclusion planning
- Open space planning
- Sport and recreation planning
- Community development planning
- Planning for culturally and linguistic diverse groups

### 4.1.1 Consultation themes

The following table highlights consultation themes that informed the development of five strategic projects detailed in the Regional Public Health and Wellbeing Plan. These projects address two of the strategic directions – Environments for Health and Capacity for Health. The third strategic direction, Protection for health, includes activities that are ongoing and have legislative obligations and oversight.

Regional Project	Consultation Themes Previous Regional public health consultation (2014)	Consultation themes Council consultations 2014 – 2019
<b>ENVIRONMENTS FOR HEALTH</b>		
<b>Active Regional Connections - Open space mapping with cycling and walking routes</b>	<ul style="list-style-type: none"> <li>- Promote regional walking paths and cycle ways and associated amenity (e.g. toilets and seating)</li> <li>- Protect healthy lifestyles by protecting open space and active corridors from development pressures</li> <li>- Bolster climate adaptation measures to enhance outdoor activities, including regional consideration of trees, shade and rest areas</li> <li>- Enable active living by enhancing open space and the Linear Park</li> <li>- Enable active living through continuity of walking and cycle ways</li> <li>- Enable active living through supportive amenity in open space and along active corridors, such as toilets, shade, seating, change areas and refreshment outlets</li> <li>- Regional collaboration to reduce duplication and enhance regional access to recreation facilities, dog parks and access corridors</li> <li>- Regional access plan for open space, the River Torrens Linear Park and active corridors</li> </ul>	<ul style="list-style-type: none"> <li>- Open space is highly valued and popular</li> <li>- Generally high feelings of safety facilitate good use of open space for all age groups – build on this</li> <li>- Acknowledge histories of the Kaurana People</li> <li>- Acknowledge different waves of immigration</li> <li>- Increase access to River Torrens Linear Park</li> <li>- Partner with other councils to coordinate cycling infrastructure</li> <li>- Everything should be connected - plan for footpaths and cycle paths</li> <li>- Create a cycle-friendly (safe) region including safe road crossings and pedestrian share zones</li> <li>- Encourage people to choose cycling or walking over the car</li> <li>- Activated, safe and people friendly places and experiences (apply access and inclusion lens)</li> <li>- Continue to provide good recreation facilities for young people</li> <li>- Facilitate active ageing</li> <li>- Healthy and connected places</li> <li>- Increase sport, recreation and community facilities for young people</li> <li>- More family oriented open space</li> <li>- Open space that welcomes young people hanging out together</li> <li>- Increase tree planting and landscaping</li> </ul>

Regional Project	Consultation Themes Previous Regional public health consultation (2014)	Consultation themes Council consultations 2014 – 2019
		<ul style="list-style-type: none"> <li>- Strong support for environmental sustainability</li> <li>- Young people are big users of parks and open space – maintain and add value with youth friendly amenity that encourages physical activity</li> <li>- Increase shade and access to drinking water in parks and open space</li> <li>- Mitigate effect of development on access to open space</li> <li>- Mitigate effect of development environmental sustainability and risks of climate change</li> <li>- Promote safe cycle and walking routes</li> <li>- develop consistent wayfinding for all (older people, people with disabilities, CALD)</li> <li>- include places of interest in wayfinding, including local and Aboriginal heritage, community places and spaces</li> <li>- consider equitable access to open space for different user groups, including walkers, dog walkers, café users, cyclists, children etc</li> </ul>
<b>Regional community transport network</b>	<ul style="list-style-type: none"> <li>- Protect and enhance community connectedness through good amenity, access and awareness</li> <li>- Enable active living through regional community transport</li> <li>- Community transport for short trips</li> </ul>	<ul style="list-style-type: none"> <li>- Ageing in place</li> <li>- Healthy and connected</li> <li>- Community transport for older people</li> <li>- Community transport for people with disability</li> <li>- Event based community transport</li> </ul>
<b>Regional volunteering</b>	<ul style="list-style-type: none"> <li>- Maintain the number of volunteers to meet demand</li> <li>- Volunteers for local community transport</li> <li>- Provide low cost/ free access to meeting rooms for local volunteering activities</li> <li>- Engage volunteers in projects that address social isolation</li> </ul>	<ul style="list-style-type: none"> <li>- Active ageing</li> <li>- Healthy and connected</li> <li>- Create opportunities for youth volunteering – they want to connect to people, issues and events that matter to them</li> </ul>

Regional Project	Consultation Themes Previous Regional public health consultation (2014)	Consultation themes Council consultations 2014 – 2019
<b>CAPACITY FOR HEALTH</b>		
<b>Regional Promotion of activities and events</b>	<ul style="list-style-type: none"> <li>- Promote regional health and wellbeing activities</li> <li>- Promote to targeted populations with relevant and consistent messages and in relevant formats</li> <li>- Regional public health promotion plan, including regional calendar of events</li> <li>- Consistent messages/ slogans for regional initiatives</li> </ul>	<ul style="list-style-type: none"> <li>- Everyone is valued and heard</li> <li>- Provide more information in easily accessed formats and platforms</li> <li>- Apply all ages abilities and backgrounds lens to promotion and communication</li> <li>- Identify community connectors (young, old, ATSI, CALD, people with disability) and use them to connect to hard to reach groups.</li> <li>- Don't forget renters</li> <li>- Importance of street fairs and markets</li> <li>- Inclusion and cultural diversity</li> <li>- Healthy and connected</li> <li>- Increased social connection for older people</li> <li>- Target promotion of activities to needs and vernacular of different groups (including youth, older people and CALD)</li> <li>- Connect to the people who are connected to hard to reach groups (such as parents of teens; service providers)</li> <li>- Recognise key services as places of promotion and connection – libraries, community events (fairs etc), council websites, newsletters)</li> <li>- Increase access to activities by careful consideration of WHEN they are offered</li> <li>- Increase whole of community events</li> <li>- Connect with young people through their own networks and platforms</li> </ul>
<b>'Talk to your neighbour' – addressing social isolation</b>	<ul style="list-style-type: none"> <li>- Promote to increase social connection and inclusion</li> <li>- Talk to your neighbour could be applied to individuals, businesses and services</li> </ul>	<ul style="list-style-type: none"> <li>- Welcoming communities</li> <li>- Embracing diversity</li> <li>- Healthy and connected</li> <li>- Connecting young people to issues that matter to them</li> <li>- Connect long-time residents to newcomers in a way that maintains sense of belong for long-term residents and increased sense of belonging for new comers</li> </ul>

## 4.2 Finalising the Regional Public Health and Wellbeing Plan

The Draft Regional Public Health and Wellbeing plan was made available by all constituent councils for community feedback in December 2019. Posters and bookmarks were developed to inform the community and key stakeholders about the online consultation. A summary of the feedback is provided below.

### 4.2.1 Consultation summary: Regional Public Health and wellbeing plan 2020-2025

#### Statistics

- December 2019
- 445 visited site
- 181 visited multiple pages
- 166 downloaded a document
- 68 people engaged (25 to 84 years; half over 65 years; 35 females and 33 males)
- All council areas represented

#### Survey

Between 23 and 33 respondents agreed with statements indicating that the Plan was likely to have a positive effect on identified areas of public health. Between 7 and 11 respondents disagreed with each statement. A high number of people were not sure how the plan might affect certain areas of public health. Safety, support for cultural diversity, and ability to achieve regional health and wellbeing goals overall, were the three statements most likely to have an 'unsure' response (See figure 19)

Figure 19 – extent to which participants agree or disagree to statements relating to draft Plan

## Feedback

Almost all 68 respondents provided feedback about the strengths and weaknesses of the Plan. The following word-clouds summarise key words and phrases.

## Considering feedback in final plan

The final plan has been amended in response to the following community feedback. This feedback was repeated and applicable to the Plan. Other feedback was relevant to the role of Council but beyond the scope of the Plan and this has been noted for further consideration by Councils. Some feedback was beyond the scope of the plan and beyond the role of Council.

### Add

- Regional consideration of mental health and suicide prevention (added to two-page plan and background paper)

### Clarify

- This public health plan will be delivered in conjunction with other plans designed to improve programs and amenity that are likely to have public health and wellbeing outcomes including: Climate change adaptation (Resilient East), Disability access and inclusion, age-friendly communities, child and youth development, reconciliation, asset management, social/community and sport, recreation and open space planning (clarified on two-page plan)
- Target populations for regional projects (added to two-page plan)
- Actions and implementation plans associated with projects (See 6.3)
- Evaluation and reporting (these have been considered and will be clarified when regional project working groups are convened)

## 5.0 Governance and Regional Planning Framework

EHA's work is regulated under the *South Australian Public Health Act 2011*, the *Food Act 2001* and the *Supported Residential Facilities Act 1992*. Its Board of Management is made-up by two representatives from each of the five Constituent Councils and is responsible for ensuring EHA acts within its charter, which covers key public and environment health services such as immunisation, hygiene and sanitation control, licensing and monitoring of Supported Residential Facilities, and inspection and regulation of food outlets.

### 5.1 Regional Collaboration

A regional approach for public health planning by the EHA Constituent Councils builds on the existing, successful collaboration for shared environmental health services through EHA as well as the initiatives of the Eastern Region Alliance (ERA). A regional approach was adopted by the Councils to improve Council capacity to engage with potential partner organisations and to recognise opportunities for joint advocacy.

The Eastern Regional Public Health Plan Advisory Committee, comprising staff representatives of the five Constituent Councils and EHA, provided overall guidance on the development of this Plan.

The regional model for the development of the Plan is shown in Figure 20.

#### REGIONAL PLAN DEVELOPMENT PROCESS

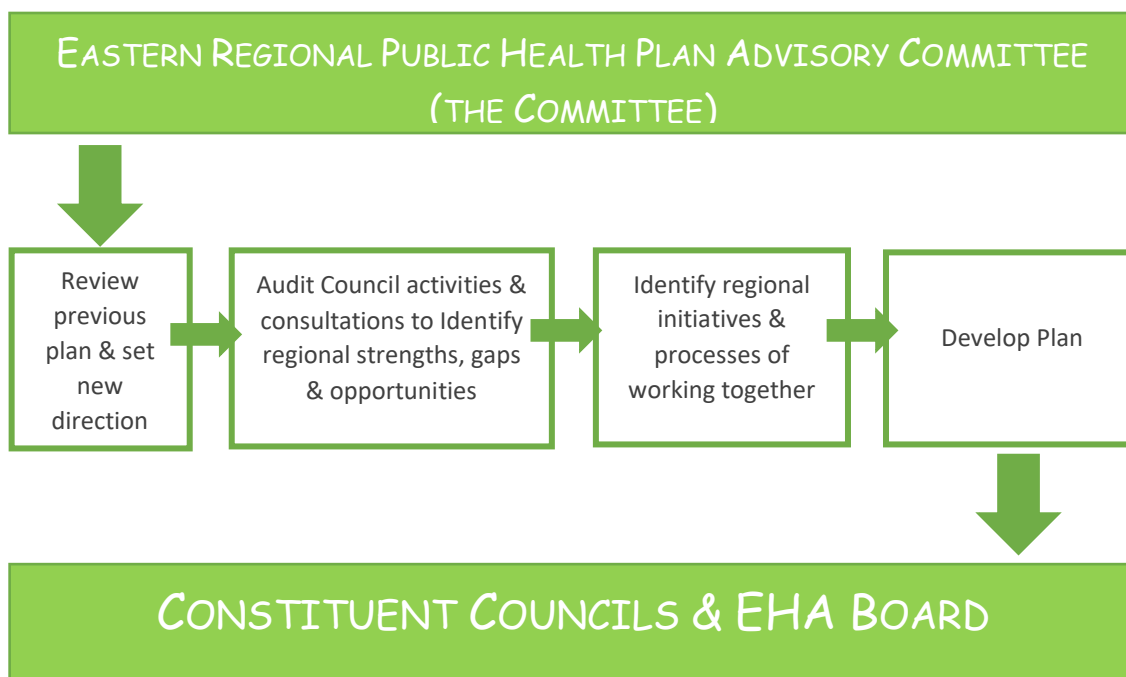

Figure 20 – Governance and Regional Plan Development process

## 5.2 Implementation Framework

An implementation and reporting framework is suggested. This framework acknowledges that regional initiatives are likely to have unique requirements in relation to stakeholders, actions and reporting requirements. Table 18 outlines key activities related to the implementation and reporting of *Better Living Better Health 2020 – 2025*. Figure 21 illustrates the Annual cycle of these activities over the life of the Plan.

**Table 18 - Implementation framework**

Outcome	Activity	Who	How	Timing
<b>Plan adopted by Council</b> • <b>Final Plan</b>	Report to Council	All Councils	Individually	April-May 2020
<b>Priorities agreed for next 12 months</b> • <b>Timeline</b>	Collaborate to prioritise	PHPAC	Workshop	Annually
<b>Regional project teams convened</b> • <b>Project scope</b>	Identify stakeholders; invite to collaborate; clarify project actions	PHPAC and relevant stakeholders	Initiation meeting	2020
<b>Regional project evaluation measures identified</b> • <b>Targets</b>	Collaborate to identify what success looks like and how it will be reported	Project teams	Workshop	2020
<b>Actions implemented</b> • <b>Workplans</b>	Implement project related actions	Project teams, relevant council and community stakeholders	As agreed by project team	Throughout the year
<b>Project progress evaluated</b> • <b>Project Evaluation data</b>	Regional Projects evaluated	Project teams	Method agreed by project team	Every 6 months
<b>Plan oversight</b> • <b>PH Plan Progress report</b> • <b>Annual Council progress report</b>	Review Project progress & adjust actions where necessary	PHPAC	PHPAC meeting	Every 6 months
<b>Biennial reporting to Chief Public health Officer</b> • <b>Compiled Regional PH Plan report</b>	Collate project evaluations from project leads using reporting framework	EHA	Email	Every 2 years

Figure 21 - Annual cycle of implementation, evaluation and reporting

## 6.0 Regional Public Health and Wellbeing Plan

### 6.1 Principles

1. A regional focus - Plan focusses on projects and activities that have regional benefit and require collaboration across two or more councils
2. A collaborative approach - Implementation of the plan requires collaboration between constituent councils, and between councils and community partners
3. A targeted and equitable approach - Plan is designed to maximum benefit for the most disadvantaged

### 6.2 Regional Public Health and Wellbeing Plan

This Plan is being delivered in conjunction with other regional plans including: Climate Change Adaption (Resilient East); Disability Access and Inclusion; Aged Friendly Communities; Child and Youth Development; Reconciliation; social/community and an assortment of sports, recreation, asset management and open space plans.
