Friends of the Environment

SUPPORTED BY A GRANT FROM THE **Adelaide and Mount Lofty Ranges**
Natural Resources Management Board

Did you know that trees in our cities

- Provide shade and cooling effects (by up to 8°C)
- Reduce wind intensity
- Reduce noise and air pollution
- One large tree produces enough oxygen for four people each day
- Drivers slow down in tree lined streets
- Extend the life of bitumen roads (shade)
- Can reduce surface water runoff by up to 20%
- Provide habitat and food for wildlife

What you can do to protect our urban trees

- Give them a drink when it's dry
- Protect roots from soil compaction - don't park too close
- Protect trunk from damage - don't mow too close

Contact Council

- To report damage or declining tree health
- To replace or get a street tree for your place
