Upcoming geotechnical investigations to detect services on Magill Road

Carey Street to Penfold Road and at Norton Summit Road intersection

To understand the type and number of services located under Magill Road, geotechnical investigations will be undertaken on Thursday 19 September between 9 am and 3.30 pm.

During these works lane closures will be in place on Magill Road between Carey Street and Penfold Road, and at the Magill Road intersection with Norton Summit Road.

The lane closures on Magill Road between Carey Street and Penfold Road are expected to be in place for four (4) hours.

At the Magill Road intersection with Norton Summit Road, the lane closures are expected to be in place for three (3) hours.

The lane closures will allow work zones to be set up to conduct the service locations.

Magill Road will remain open as these work activities are conducted however parking spaces and bike lanes will not be accessible when the work zone is in place.
