Your Fourth Creek Trail pocket guide

This map provides a selection of fun activities for children and families.

To get started

- Pick a loop to explore, part loops are fine if you're short on time
- Note the scale on each loop. 300 metres is about a 10 minute walk and 5 minute cycle
- The longest loop is Loop 3 but it has lots of part loop options
- Loop 4 is shortest, ideal for young children
- All loops take longer if you're having fun and taking time to explore!

Give your kids an outdoor boost

Playing outdoors is important for kids. It provides opportunities to:

- connect with family
 - experience independence and freedom
 - get dirty and connect with nature
 - teach values such as sharing, negotiation and team work
 - be active
 - develop their brains;improving learning, concentration, memory and sleep patterns.
- Parents also benefit, so get out and enjoy the great outdoors.
